updated 8. 8. 2022 | published 8. 8. 2022

### Summary

A tiny scoop with pointy end to accurately fill things in things.

[Household](#) > [Other House Equipment](#)

Tags: [houseplants](#) [kitchentool](#) [scoop](#)

I created it while practising in Fusion 360, being in the need of something to easily feed my pitcher plants. Seeing the printed model makes me already think about design changes. So might upload v2 at some point. Until then, feel free to use and create your version.
