This is a remix of Drumhart's OnePlus 6T phonecase with a vegvisir cutout for visuals.

I also removed the OnePlus logo from the back.

Print Settings

Printer Brand:

Anycubic

Printer:

All-metal Mega

Rafts:

No

Supports:

No

Resolution:

0.12

Infill:

100

Filament: SUNLU PETG but PLA should work too Black

Notes:

Printed it with PETG for more temperature resistance. Flat side down.

Post-Printing =====

I suggest cutting away the bar above the cutout for the vibrate/loud/silent slider as it was nearly unusable otherwise.

For a nice effect, place a standard post-it (should fit) in your favorite color behind the vegvisir cutout.

How I Designed This

- Inkscape for vectorizing a black/white vegvisir image
- Tinkercad to edit the original STL
