### Summary

2" to 1,25" filter adapter for astronomy

[Learning](#) > [Physics & Astronomy](#)

### 2" to 1,25" filter adapter

Used as reduction step down ring for astronomy filters, that allows you to use 1,25" filters on 2" eyepieces.

Print at lowest layerheight posible with greatest quality available. For me it was 0.12 because of current not yet resolved weird artefacts at .08 and it still works great.
