This is a gaming headset holder/hanger/hook, designed to hang off the side of the Xbox Series X (when in vertical orientation). I was inspired by this design <https://www.thingiverse.com/thing:4803944> but wanted some changes:

- No Xbox logo
- Does not require supports
- Keeps headset from touching Xbox side
- Snap-fit action between the two pieces

The snap-fit action was just for me, as a design challenge, but I like how it came out.

I also added a piece of moleskin (a felt-like material you can get at pharmacies) to the back of the hanger so that it wouldn't scratch my Xbox.

Print both pieces and snap together.
