

Keyboard support on monitor

[VIEW IN BROWSER](#)

updated 8. 8. 2022 | published 8. 8. 2022

Summary

I design it to avoid to have two keyboards at the same time. Work and personal keyboard.

[Gadgets](#) > [Computers](#)

Tags: [keyboard](#) [keyboardstand](#) [monitor](#) [keyboardonmonitor](#)

This part was my second, and more successful design. The first one broke after two months of use, so I reinforced the below area adding more material. Please print the part as shown on picture. I use 3, but two should be enough.

My monitor is a HP EliteDisplay E24 and the keyboard is a Dell from an XPS computer.

Regards,
