In a recent move the plastic foot inserts for my IKEA PS metal cabinet in red (<https://www.ikea.com/us/en/catalog/products/80100190/>) had gotten knocked out and damaged. Using one of the damaged inserts I designed a new one and printed 4 out in blue PETG.

## Print Settings

### Printer Brand:

Prusa

### Printer:

i3 MK3

### Rafts:

No

**Supports:**

No

**Resolution:**

0.2

**Infill:**

20%

**Filament:** eSun PETG Blue

**Notes:**

If you're printing PETG on a PEI sheet, like on a Prusa MK3, be sure to apply a barrier between the PETG and your PEI. In my case, I apply a fine layer of micro powder chalk, though you can also use baby powder.
