Summary

ELRS and SMA stubby mounts for the source one V5.

[Hobby & Makers](#) > [RC & Robotics](#)

Tags: [antennamount](#) [drone](#) [fpv](#) [tbs](#) [tbssourceone](#)

ELRS and SMA stubby mounts for the source one V5. Includes optional spacers to prevent the mounts from sliding around. 3mm version for TBS SMA pigtails, and 2mm version for Rush pigtails.

Made to be printed in TPU, nothing fancy required to print it. They are small parts though so recommend printing in multiples or all at once.
