Summary

Where dinosaurs and ergonomic comfort collide.

Have you even been sitting at your desk and thought the only way to be truly comfortable would be to be sitting upon a dinosaur? That is a rhetorical question, of course you have! Introducing your very own dino chair! Sure at it's current size most people won't be able to sit on it comfortably, but you can always go bigger!

Supports are a must, due to the overhang of the chin and the belly.
