Summary

Car cup carrier for a 26 oz mason jar

[3D Printers](#) > [Accessories](#)

Tags: [car](#) [cupholder](#) [jar](#) [masonjar](#)

Print the Holder with PETG or ABS, I use PETG, this helps with extreme heat of being left in a vehicle in the hot sun,

Print With Supports

If you like the model and would like to see more like it let me know, send me a message or drop by my Twitch Channel and see me <http://twitch.tv/randn3d>

I do plan on making a smaller version for smaller mason jars, this is made for a 26oz mason jar, my wife drinks her ice coffee in it every morning on her 45 min drive to work. There is a model for each one without any letters on it so feel free to put a name on it if so wish.
