Summary

This remixed dragon curtain rod holder is "fire" but don't worry, they won't "burn" you!

I liked the mount but wanted it to wrap around the curtain rod. It will fit a approximately a 16mm curtain rod, but is very tight. Please post a picture if you make them! I'd love to see how yours turned out.

Also, If you enjoyed my design and you feel so inclined, feel free to leave me a little tip. Everything goes back into my 3D Printing Habit.

Thanks a bunch.
