[Gadgets](#) > [Other Gadgets](#)

I lost my long stick for my Elite Series 2 but had lots of the short ones. I took the rubber nub off of a short stick and 3D printed a new, long stick. Replaced the nub over the 3D printed stick and then I push fit it on to the Elite Series 2.

Prints on its thin end with supports to allow the curved thumb area to print nicely.

Print Settings

Printer Brand:

Prusa

Printer:

I3 MK3S

Rafts:

No

Supports:

Yes

Resolution:

0.3
