A selection of Halloween ghosts that use LED tea lights to glow.

Short Models (100mm Tall)

- Scary Ghost
- Spooky Ghost
- Happy Ghost
- Blank Ghost - Design your own face! (.f3d and .stl included)

Large Models (150mm Tall)

- Scary Ghost
- Spooky Ghost
- Blank Ghost - Design your own face! (.f3d and .stl included)

Most tea lights have a 38mm (1.5in) diameter. The openings in these models are slightly oversized, so most (if not all) tea lights will fit. Just turn on the LED and set your ghost on top.

If you are worried about getting lights that fit, [these](#) are the tea lights that I used.

Print Settings

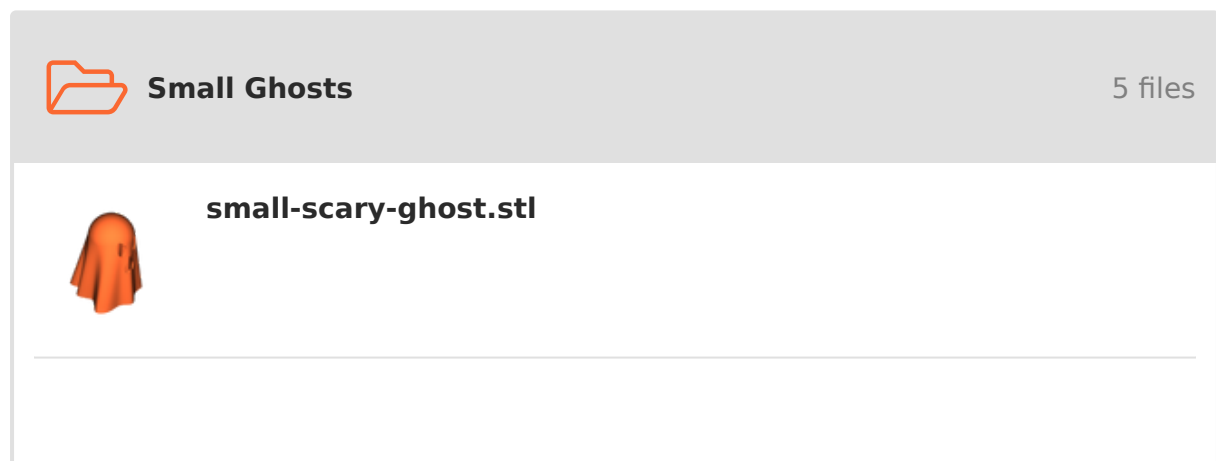

These have all been designed to print with 2 perimeters and require no infill. Some overhangs in the mouth and eyes require good cooling.

[Buy Me A Coffee](#)

The following filaments were used in the pictures above:

- Sunlu PLA White
