## Summary

Remix of Ledimestari's model from Thingiverse to increase the camera view angle.

[3D Printers](#) > [Accessories](#)

Tags: [creativelive](#) [webcam](#)

Remixed the model in Tinkercad to increase the angle of the base.  
Original model here: [thingiverse.com/thing:3158952](https://www.thingiverse.com/thing/3158952)

The original model had to be placed very far back to get a good view of my printer - this version can be put a lot closer to the printer while still maintaining a good view of the buildplate.

Like the original, sticks on the wall with double sided tape or similar.

## Print Settings

### Printer Brand:

Prusa
