Summary

Simple two part Shelf Design. No supports needed

[Household](#) > [Office](#)

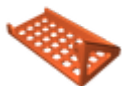

Tags: [shelf](#) [shelfbracket](#) [shelfmount](#)

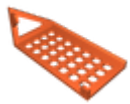

This is a simple shelf printed in two parts for a left and right side. You can print this with out supports. You could also just print one side. The two halves can be glued together or use a wood tooth pick to be inserted in holes to connect the two pieces for support.

Dimensions of the shelf is 14inch long x 3 3/4 deep. These are overall dimensions. Shelf space is slightly smaller.
