### Summary

Simple tablet stand

[Gadgets](#) > [Portable Devices](#)

Tags: [tablet](#) [tabletstand](#) [lenovotablet](#) [samsunggalaxys6](#)

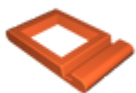

There are two versions of this with different slot widths.

The 11mm one was designed for a Lenovo Tab 2 A10, about 9.5mm thick.

The 8mm one is for a Galaxy S6 Lite, about 7.5mm thick.

I've glued some mousepad material to the bottom to keep it from sliding around
