## Summary

Stand for the Apple Magic Trackpad to make it more ergonomic.

[Gadgets](#) > [Computers](#)

Tags: [apple](#) [magictrackpad](#) [appletrackpad](#)

Remix of a model by ktansai ([Thingiverse](#)). I added tabs in the corners so it has room to place rubber feet on the bottom.

I cut off the bottom ~5mm in the slicer to make it more ergonomic for me, but left the model sized as ktansai designed it.

## This remix is based on

**Magic Trackpad holder**
