Summary

Remake of Flipper Zero Case with another type of hinges.

[Gadgets](#) > [Portable Devices](#)

Tags: [case](#) [zero](#) [flipper](#) [flipperzero](#)

This is a complete remodel of the Flipper Zero case. It uses another type of hinges, as the original ones tended to break off. Its also slightly smaller.

It prints with no supports.

I used M3x20 screws. It might help to drill the hinges and the clip with a 3mm drill after printing.
