Summary

As the title says, this is an airtag holder in the shape of the iconic Star Wars Ship: The Millennium Falcon.

I would suggest using no support with tpu filament to allow the holder to grip around the airtag. The wider one will show more of the airtag but the narrow one will hold it in securely as the space is much smaller. There is a hole on the bottom for reception and in case your airtag is stuck, so you can jut push it out
