Summary

Playing cards case that can close with a latch

[Toys & Games](#) > [Other Toys & Games](#)

A new and improved version - <https://www.printables.com/model/513192-playing-cards-case-with-closing-lid-using-clips-av>

I wanted for a long time a playing cards games case that can close so the cards wont fall, because i didn't see anything that suits my needs i deiced to create my own.

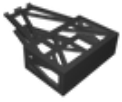

It uses two M2 screws 15mm length each

the entire print does not need support but printing the clip on the flat side will cause the two first layers to look a bit weird
