updated 10. 8. 2022 | published 10. 8. 2022

### Summary

Slim and simple AirTag mount for Tello Drone

[Hobby & Makers](#) > [RC & Robotics](#)

Tags: [airtag](#) [apple](#) [drone](#) [tello](#)

Slightly rounded on the inside to snap snugly to the AirTag.

Sits out of range of the props, so no need to elevate above.  
Just be sure to re-calibrate drone after attaching.

Disclaimer: I don't actually own an AirTag, so I just printed one for modeling.
