### Summary

A slide top pill box for a week's supply of AM/PM meds.

[Healthcare](#) > [Home Medical Tools](#)

Tags: [pillbox](#) [pillcontainer](#)

A slide top pill box for a week's supply of AM/PM meds. A simple print, no supports required. If desired, add a filament change just prior to the date/time legend to permit printing with a different color. If printed in 0.2mm layers, that would be at layer 23.

The slide covers may fit tighter or more loosely depending on the flow rate selected during print and your printer's characteristics. On my printer they fit easily but will not move when the box is tilted or shaken.
