Summary

Cute little ring with simple cat ears that are one extrusion thick. Be sure to enable "detect thin walls" in your slicer

[Fashion](#) > [Other Fashion Accessories](#)

Just a simple blank ring with single extrusion cat ears.

The base ring is based on [BODY3D's Wedding Ring](#) and the ears are from [RoboMagus's Cat Ears](#).

Be sure to enable the "Detect Thin Walls" setting in your slicer! Otherwise, the ears likely will not print at all and you will just get a blank ring.
