## Summary

Module bases for you to arrange your miniatures as you want and need using TinkerCad. All relevant sizes included.

[Toys & Games](#) > [RPG Figures](#)

Arrange your miniatures for all your Warhammer games. For display, transport, moving around together or batch painting. It's up to you however you will need to do some work.

Import the sizes you need into TinkerCad (which is free) slightly overlap the edges, Combine them together and export as an STL file. Print in PLA using 0.4 nozzle 0.2 layer height.

Super easy, super simple but works.
