updated 9. 9. 2022 | published 9. 9. 2022

### Summary

A container with space for the tap, tap size drill, and clearance drill for some regularly used thread types.

Tags: [clearance](#) [container](#) [drill](#) [metric](#) [organizer](#) [tap](#) [toolbox](#)

The top has a label embedded and the bottom has the tap and drill sizes.

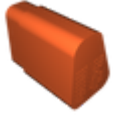

Printed at 0.2mm standard settings other than top layer ironing, 10% gyroid infill.

It is a nice fit between top and bottom printed on my MK3S+.

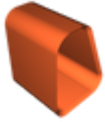

The line down the side is a place for the seam. I added that mostly for the fit between the top and bottom so there would be no bumpy seam to interfere. I carried it over to the outside just for looks.

The depth of each hole is such that each drill is at the same height despite being different lengths.
