War is always messy. Especially in the grimdark future. And especially for the Guard.

There is disturbing lack of dead body in the miniatures available. I wont say it too loud but it's probably the work of the big =][= if you know what I mean.

So I decided to create mine.

This could be used as an objective marker, a scenic base or on your favourite terrain piece.

Feel free to post a make of your inventive use of this model.

In addition to my own [scrap box](#) I also used [MonkeyMiniatures'](#) [lasgun](#)
