Hydroponic garden system (like IKEA vaxer).

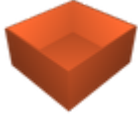

- 3 of these 6-cell modules fit in the basic Ikea Greenhouse (model: SOCKER)
- Print the vase in "vase mode" with one layer. If you printer cannot do that, try the "thicker-vase.stl" file.
- I used a re-scaled version (57,95 x 57,95 x 52,25 mm) of the great "Ikea Hydriponic garden pot" by lukasz_b_g <https://www.thingiverse.com/thing:2027366>

****Update 25/03/2019 - Added a 4-cell version.***

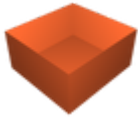

- Better and easier-to-use funnel: <https://www.thingiverse.com/thing:3547946>
- Kit for growing (Ikea Vaxer): <https://www.thingiverse.com/thing:2436117>
