I wanted a holder for the pliers with as little visible plastic as possible and came up with this. Not the most easy to print or economical but it isn't too bad.

It comes in 2 different sizes:

34.5mm works for at least 70 02 160 and 26 12 200

38.5mm works for 03 02 180

I print it standing up with a small brim and support. If you have good adhesion the brim can probably be skipped(I've managed to)
