Disclaimer: Fire is dangerous and burning plastic fumes can be toxic, design may be unsafe, do not leave unattended, do not use directly on table, candles not recommended, use at your own risk

A pocket-sized chanukiah/menorah built for oil or (birthday sized) candles.

Both sides are the same. The pins can be made from pieces of 1.75mm filament. Place the two sides next to each other in the open position. Melt the ends of two pieces and expand the very end until it is ~5mm in diameter. Then place the other end through the middle holes through to the outside. Melt/glue the ends to the exterior rim. The slot at the front is for a magnet found in display packaging of some products, glue one end to the slot and the other will be held by friction.
