This is a replacement (or maybe mine never came with one) lens cap for the GM60 Projector. This is a white-label projector sold under the brand names Amalen, Ezapor, Lelec, Excelvan, Silvino, and Optama, or simply sold unbranded (mine was). I've included two photos of the black and white versions so you can tell if it applies to yours.

I customized mine with my logo (feel free to customize yours as well). The lens cap fits in perfectly and has a snug fit. A little elephant foot from your printer actually helps this model. Make sure you clear all the support material before attempting to install it,
