Summary

A base for the JSAUX Magnetic Wireless Charger Compatible with MagSafe.

[Gadgets](#) > [Other Gadgets](#)

This base fits around the JSAUX Magnetic Wireless Charger (link below), converting it from a puck style charger to a platform style. The base easily snaps on and off allowing for quickly switching from one style to another.

The design should be printed upside down to avoid the need for supports, and to give the top the nicest surface possible. The underside of the design is hidden when in use, so it can be printed with thick layers.
