Summary

Why are elephants so broke? Because they work for peanuts!!

Designed these for a friend who is a HUGE University of Alabama fan. I'm honestly surprised I didn't burst into flames designing them, but I'm sure they will be a "touchdown" with whoever you make them for! Also, make sure to multiple in your slicer so you'll have a pair.

Don't forget to post a picture if you make your own. Also, If you enjoyed the design and you feel so inclined, feel free to leave me a little tip. Everything goes back into my 3D Printing Habit.

If you are in need of hardware to make your own earrings, here is a link to the ones I recommend: <https://amzn.to/3CbTdwR>

Thanks a bunch, and Gig 'em AGGIES!
