[Household](#) > [Other House Equipment](#)

A wall box inspired by <https://www.thingiverse.com/thing:3348352>. I decided to change the attachment system to make it easier to remove the box as need.

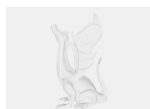

Nothing special needed to print. PLA with 0.3 layer height works well. No supports needed.

V2 of the Wall Plate has extended hooks.

V2 of the box has thinner walls and bottom. (less material).

Category: Containers
