This is a REMIX of the Prusa MINI Articulated Raspberry Pi Camera Mount

4.71 hrs

2 pcs

0.20 mm

0.40 mm

PET

35 g

Prusa MINI /
MINI+

[3D Printers](#) > [3D Printers - Upgrades](#)

Tags: [cameramount](#) [logitechc920](#) [prusamini](#)

I changed my Raspberry Pi camera for a Logitech C920 so I had to make a new mounting bracket

Note that i did not modify or create new components, i assembled some existing components to obtain a simple Logitech C920 Camera Mout for the Prusa Mini

- Thx to [Sneaks](#) for all the original components

This remix is based on

Articulating Raspberry Pi Camera Mount for Prusa MK3 and MK2
