Glasses with the word SOFIA and a cute kitten

A piece of filament should be used for the spines of the temples. I always use a piece of PETG yarn because it is more elastic, but PLA is fine too.

Degli occhiali con la scritta SOFIA e un simpatico gattino

Per le spine delle stanghette va usato un pezzo di filamento. io uso sempre un pezzo di filo PETG perché è più elastico, ma va bene anche in PLA.
