Do you own a healthy rips fury edge vape? Do you use the dosing capsules with it?

If so check out my capsule dispenser!

As you insert your old used capsules it pushes out a fresh new one to be grabbed and used. the larger sizes allow you to add a printed capsule that marks the division between fresh and used. Just dont put a printed capsule in your vape!

The capsules are sold in packs of 4 so I have sized around that. There are essentially 3 sizes 7/8 capsules, 11/12 capsules and 15/16 capsules. The lid snaps onto the body. It is a very stiff snap! It helps the place the lid against a table and press the body onto the snap.

If you choose the larger of the pairs, you should also print a capsule that can mark the division between the fresh and used capsules as well as take up the extra space of the one in use.

gyroscope; picture-in-picture" allowfullscreen></iframe>
```

Printing Tips!

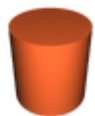

Check the screen shot of cura, I print the bodies at a 45 degree angle and the lid on its side.

YOU MUST USE SUPPORTS IN THIS ORIENTATION! They are easy to remove though...
