Summary

100 card MTG deck box for Commander, that looks like a shipping crate

[Toys & Games](#) > [Board Games](#)

Tags: [commander](#) [deckbox](#) [magicthegathering](#) [mtg](#)
[mtgbox](#)

The platonic ideal of a shipping crate now in miniature and in deck box form. But be warned its contents may be hazardous to your health or maybe just the rest of your playgroup.

This deck box will hold 100 double sleeved cards with a little extra space for tokens.

Note:

- These parts have a nominal interlocking clearance of .10mm. This fit is intentionally a little tight. Due to this it is necessary for your printer to be properly calibrated for dimensional accuracy.

Assembly

Print 2 copies of part 3

Lightly sand surfaces of all parts that was touching the print bed. Square up and glue a part 3 to the bottom of part 1. Then do the same with the other part 3 and the top of part 2.
