NOT MY MODEL - all credit goes to the original creator on Thingiverse:

<https://www.thingiverse.com/thing:3671177>

Found this awesome model on Thingiverse that wasn't on Printables yet so I brought it across

Depending on the resolution you print you may need some supports.

I printed it with a 0.4mm nozzle and 0.125mm layer height and didn't need any supports
