### Summary

I love my Wyze Buds but I wanted a way to clip the case to a keychain. The case didn't lend itself to this so I made it.

Tags: [keychain](#)

I love my Wyze Buds but the case design doesn't have a keychain loop. The case itself doesn't even lend itself to a sleeve like AirPods. This plate includes a loop on the side. I used epoxy to attach the plate to the bottom of the case so it still sits flat.
