Summary

This is a longer version of jkrygsman's Spider CR Touch/BL Touch mount.

[3D Printers](#) > [3D Printers - Upgrades](#)

Tags: [bltouch](#) [bltouchbracket](#) [bltouchmount](#) [bltouchprobe](#)
[bltouchsensor](#) [crtouch](#) [crtouchholder](#) [crtouchmount](#)
[crtouchprobe](#) [ender3v2](#)

The additionnal length of this mount puts the probe at a position where it will not hit a Pi cam mount placed on the QR Code covering the X axis motor.

This was only tested with a CR Touch. I'm assuming the BL Touch has the same dimensions has not to hit the Pi cam mount when homing the X axis.
