---

Advanced error planter or pot for your plants. The main idea for the structure comes from a great and lovely designer here - **Extrutim** - He was so kind to allow me to turn it into a pot design (once again big thanks for that!!!)

<https://www.printables.com/social/38556-extrutim/about>  
(link to Extrutim's profile)

<https://www.printables.com/model/249609-gelblicht-lamp-vase-mode>  
(and to the model I got inspired by)

The pot is cyberpunk stylized to fit a modern interior design.

best to be printed in vase mode in PLA filament

Happy printing! :D
