### Summary

Clip for Kia seatbelt

Remixed because Kia must have slimmed down the width of their seatbelt clips. Something like TPU is a great, durable filament to leave in the car.

If you're better at modeling, feel free to take it away and make a way better one!

I use it for the times I have to sit in my car awhile and for some reason the Kia cars decide to keep dinging at me when I'm not actually driving. It's not suggested to drive without a seatbelt on.
