### Summary

This is a simple, non-charging phone stand designed for my Pixel 3 in its case with a relief for the fingerprint reader.

Updated for my new S22+

This is a simple, non-charging phone stand designed for my Pixel 3 in its case with a relief on the top for the fingerprint reader.

Though designed specifically for my phone and case, it should work for some other phones as well.

### Print Settings

**Printer Brand:**

Creality

**Printer:**

Ender 5

**Rafts:**

No

**Supports:**

No

**Resolution:**

0.12mm layers, 0.4mm nozzle

**Infill:**

20%

**Filament:** Hatchbox PLA Black

**Notes:**

I printed at 0.12mm per layer for a smoother finish, but 0.2mm per layer should work as well.

Category: Mobile Phone
