I saw this image somewhere and thought it was cool so I did this 3D version and printed it.

This an easy manual 2 colour, 1 pause / colour change print.

If you have not done manual filament changes before, **it's easy**, just watch at 2:22 of this video to see how to do in-progress filament changes.  
**[www.youtube.com/watch?v=dXbTw9YBUNQ](https://www.youtube.com/watch?v=dXbTw9YBUNQ)**

to avoid the need to paint, I recommend using copper colour for the first filament and gold for the second...but you can use whatever colours you have.

I will slice this for non prusa printers upon request\* (min. bed size 250 x 210)

\*Print times may change for custom slices

I would really appreciate if you follow me on:
