updated 8. 10. 2022 | published 8. 10. 2022

Summary

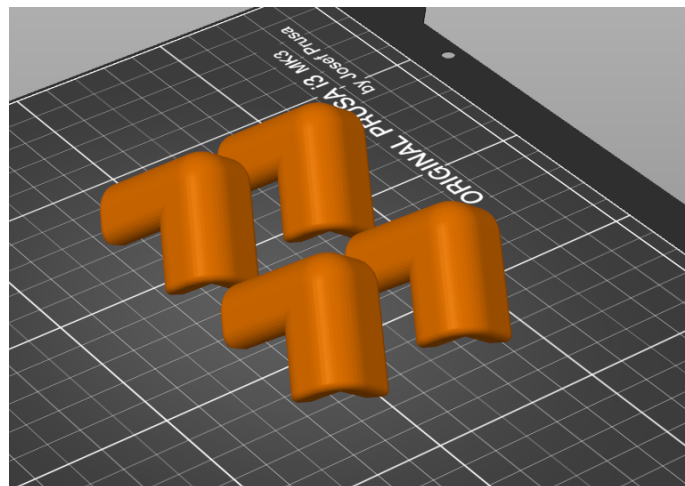

Use Baby Edge and protect the baby from injuries caused by sharp furniture's corner edges.

[Healthcare](#) > [Home Medical Tools](#)

Designed to Print without support.

You can print with PLA or PETG, but the Best material is Transparent TPU.

Glue them with double sided tape over the sharp edge of desk or any other furniture.
