Summary

Simple cover for a USB cable passage

[Household](#) > [Other House Equipment](#)

Tags: [usb](#) [grommet](#) [cablemanagement](#) [usbcable](#)

This small print allows you to pass a standard USB cable through a panel and keep the hole clean and tidy.

It requires a 25mm hole and will work with panels from 4mm to 8mm thick.

Although it's a functional piece, the threads benefit from a lower layer height.
