i broke the knob on my Tandy 1000 TL while taking the cover off. So I printed another one.

press it into the Metal case hole, then into the 10K pot, use the cotter pin to hold it in place.

and you should be good. :) works great. :)

Print Settings

Printer Brand:

MakerBot

Printer:

MakerBot Replicator 2

Rafts:

No

Supports:

No

Resolution:

.2

Infill:

30

Notes:

i printed 3 so there was time for the print to cool before swinging back around to do another layer. :)
