"These are "Ear Savers" that PandaProps designed for health care providers to use. These are for installing behind the head of surgical masks, to remove the strain of the elastics behind the ears which can cause chafing and soreness.

I added some motivational and fun phrases on the back for the health care providers, and their patients. Anything we can do to brighten their day - we should do it!"

That's what PandaProps is describing is work!

That's what PandaProps is describing is work!

This is a Remix, I end up re-drawing it all to be able to add my own text but, I used all the dimension of the PandaProps version.

Hope you find these interesting to support our Essential Workers!!!

**Add the Acr-en-ciel Logo 3 colors version and a few more Texte.

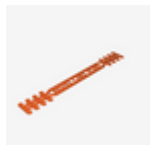

If you have Texte request I can try to Help let a comment below!
