Remake of my original ruler/protractor/stencil. I modified the template for my thermal physics class and I thought I'd share this revision. This version does not include the words "Thermal Physics".

Included in this remake: thinner (0.45mm) bookmark, removed protractor, added bullet-journal circles and a few other shapes.

gcode for 0.15 layers in two colors of PETG.

f3D file included so you can add your own words/logo. Have fun!
