Vise jaw protector / cover to protect what you put in the vise. The FUSION360 file is created with parameters, so it is quick to modify.

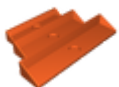

Space for magnet, but works without also.

Print with PLA, or other "soft" material such as ASA/ABS.

I made a few versions. 62x12, 75x12, 100x20.

If you have a request for a desired size, just let me know.
