updated 25. 12. 2021 | published 10. 4. 2020

Summary

Makes low flow toilets into high flow toilets for those of us more inclined to need more flushing power.

[Household](#) > [Bathroom](#)

Makes low flow toilets into high flow toilets for those of us more inclined to need more flushing power.

The bottom of the cylinder has a slight taper so you can just push it onto the stubby low flow overflow tube.

Print instructions

vase mode, no top, no bottom
